

Cat Photography Services

Why not get some beautiful portraits of your cat? Book me for an in-house photography session with your cat(s) in their home environment.

Cats are unlike dogs. You could bring your dogs to a studio and ask them to sit in front of a backdrop and you could have some success with that. Not cats! The best place for getting natural photos of a cat is where it feels comfortable. I would come to your place for about 2-3 hours so that we get some photos of your cats being relaxed or playful.

I know cats and I know that while some like to greet new people into their home, others take a while to warm up. My own cats would likely hide under the bed or in their safe space until they felt comfortable enough to come out and explore. Only you really know your cats, so we can consult on the best option is for you.

Package	Cat Personality	What is included?	Price
2-3 hour session (1 day)	Cat is outgoing and human oriented. Usually not shy.	One photo session. 10 high resolution digital prints. Post-processing with one round of edits.	\$400
2-3 hour session (2-3 days)	Cat may take some time to come around to a new person. Often hides when new people are around.	Two to three photo sessions. 10 high resolution digital prints. Post-processing with one round of edits.	\$750

- 25% non-refundable deposit required before session is booked.
- If you are unsatisfied with the photo results you will not be charged.
- Please note that no photography sessions will take place during government lockdowns.
- You are responsible for ensuring the home environment is as amenable as possible to getting photos. This means you should do so when the cat might be the least stressed. Examples of when not to book include during large family gatherings, parties, home renovations, or when you are moving.
